Expert Speakers

Vishnu Chundi

Vishnu Chundi is the Co-Founder and CEO of AssetVault, a multi-award winning fintech based out of London with offices in Hyderabad. In 2016, Vishnu co-founded AssetVault and has spearheaded the company's involvement with several of the world's leading Fintech accelerators and innovation programs including Techstars, UBS Future of Finance, Munich Re Mundi Lab, Accenture fintech Lab, and PwC Scale Lab. Vishnu started his career at Bain and Company, and subsequently launched the PayLater retail payment processing platform as Head of New Products for Wonga, the first fintech "unicorn" from the UK.

A holder of three Master's degrees in Physics, Nanotechnology, and Business Management, Vishnu carried out his graduate studies at Trinity Hall in the University of Cambridge (MPhil in Nanotechnology) and the London Business School (MBA). He completed his Bachelor's in Electronics Engineering and a Masters in Physics from BITS-Pilani where he was awarded the best research student award. In 2010, he was selected as the only student in India by the Oxford and Cambridge Society of India as a recipient of its leadership scholarship for MPhil at Cambridge, where he graduated with the highest honors in his class, and won the best research paper award for his work. Vishnu completed two international exchange programs at the University of Geneva with a full scholarship during his undergrad degree and later on completed an exchange program at the Haas School of business at UC Berkeley during his MBA.

Anca Velicu

The last three years, Anca has been working as a strategy consultant with Strategy& (part of PwC) in Australia. Her move to Sydney after pursuing a Master in Business Administration (MBA) at the London Business School and Wharton was a transition from her legal career focused on Mergers & Acquisitions and Energy Law in Europe.

In August 2020, Anca decided it was time to return to her keen interest in energy and sustainability and joined the in-house strategy team of the dynamic Offshore Wind business unit of Vattenfall. Vattenfall is a Swedish utility, with a mission to enable fossil free living within one generation.

Patrick Pan

Patrick is a Fortune-100-bred and startup-tested leader in global strategy and marketing, leading multinational profitability, B2C commercial growth, B2B platform scale, and brand storytelling at some of the last decade's most interesting institutionally funded companies, including Therabody (formerly Theragun), Lumin Skin, and Nest New York. He was also the co-founder and CMO of Apastra, a marketplace SaaS platform that accelerates the global product manufacturing and supply chain ecosystem.

Patrick studied at UC Berkeley with an honors thesis examining the globalization of consumerism and at London Business School in the MBA program. He currently serves as President of the Berkeley-Haas Alumni Network of Los Angeles.

Antonio Weiss

Antonio is a writer, digital advisor, entrepreneur, and politician. He is a Director and Partner at The PSC, a public service specialist digital transformation consultancy. He is also an elected Labour Party councillor, cabinet member and former Parliamentary Candidate. Antonio is the co-founder of Thomas Clipper, a British lifestyle brand for men, which has been featured in GQ, Monocle, Wallpaper, and is sold across the world.

His business books have been shortlisted for the Chartered Management Institute/British Library Management Book of the Year Award, a #1 UK WH Smith Business Bestseller and Business Book of the Month, and translated into several languages across the globe. He holds a PhD in History from Birkbeck, University of London and a Master's Degree (Distinction) and Bachelor's Degree (First Class) in History from the University of Cambridge. Antonio is also an affiliated researcher at the Digital State programme at the Bennett Institute of Public Policy at the University of Cambridge.

Nattaphol Vimolchalao

Nattaphol is Executive Director of Siamrajathanee Group, a publicly-traded company with an annual turnover of over \$200M. The business group is active in automotive leasing, information technology, flexible packaging, material sciences, healthcare, and hospitality. Previously, he worked at P&G as Technical Process Engineering Manager responsible for technology transfer and production scale-up from a hair care technical center in Japan and USA. Nattaphol also has experience consulting for ARM, Oxbridge Bioscience Roundtable and startup companies in Cambridge.

Nattaphol holds an MPhil in Nanotechnology Enterprise and Technology Policy from University of Cambridge and a BSc in Physics/ Material Science and Engineering from The University of Manchester. Nattaphol also received a research scholarship from The University of Tokyo in cancer drug delivery and is a member of Young President Organisation (YPO) Thailand Chapter.

Priyanka Ahuja

Priyanka has a bachelor's degree in Computer Science from B.M.S. College of Engineering and recently earned her MBA from the London Business School, during which she did an exchange at the UC Berkeley Haas School of Business. She is an entrepreneur and helped build ChaiPoint, India's largest tea retail chain, where she was instrumental in launching India's only IoT-enabled fresh tea vending machines for

corporate companies.

Prior to joining LBS she was Head of Sales (Bangalore) for Uber Eats, and is a digital strategy and innovation consultant for UK start-ups FoodBays, Mastersome, and Hungry Ventures.
